Experience

- Nov. 2017*
Present
Senior software engineer — Qwant
Tech leader in a team of the shopping dept. of the Qwant European search engine working on product classification.
▸ Python, flask, REST, product classification, word embedding
- Sept. 2014*
Nov. 2017
Senior software engineer — Xilopix
In charge of the Parallel Processing department in the team that develops the Xilopix search engine's core. Developed from scratch a distributed computing framework and bootstrapped a distributed web crawler/scrapper.
▸ distributed computing, web crawling/scraping, machine learning
▸ Ruby, Python, RabbitMQ, Redis, Elasticsearch, MongoDB
- Oct. 2013*
June. 2014
System engineer — Inria
Administration, improvement and development of the Grid'5000 experimental platform composed of a thousand nodes dispatched on 30+ clusters localised in 10+ sites.
▸ Ruby, Puppet, large scale & parallel experimentation, HPC admin.
- Oct. 2011*
Oct. 2013
Software engineer — Inria
Maintained and improved the Kadeploy3 deployment solution. The software is used by administrators to automatically and quickly install and configure OS images on hundreds of nodes.
▸ Ruby, REST, MySQL, MaaS, PXE, disk cloning, parallel prog.
- Feb. 2011*
Sept. 2011
Junior engineer — Loria
Developed the Distem emulation software that's used to transform a homogeneous cluster into a platform where nodes may have different performances and network topologies.
▸ Ruby, C, containers, software emulation, traffic shaping
- Apr. 2010*
Aug. 2010
Intern — Université de Lorraine
Studied reinforcement learning of a complex task by splitting it into several sub-tasks. Simultaneous improvement of motion and sensing skills of an agent. Practical application on a robot.
▸ C++, neural networks, reinforcement learning, Q-learning
- Apr. 2007*
Jun. 2007
Intern — University of Wales (UK)
Setup and benchmark of an open-source Information System.

Education

- 2010 – 2011*
Master of research in Computing Sciences
Cum laude, Science Faculty, Université de Lorraine
- 2007 – 2010*
Master of Computer Engineering
TELECOM Nancy, Université de Lorraine
- 2005 – 2007*
DUT in Computing Sciences
University Institute of Technology, Université de Lorraine

Computer skills

Development

Ruby, Python, Crystal, C, Java, REST

Backends

*RabbitMQ, Redis, Elasticsearch, *SQL, MongoDB, JanusGraph*

Machine learning

NN, RL, Q-Learning, HMM

Development tools

Git, Docker, GitHub, Gerrit, Jenkins

Software engineering

CI, code review, automation, test units, open-source, versioning

System

Shell, containers, virtualisation, Linux, systemd, packaging, Docker, LXC, k8s

Scientific contributions

1 journal, 4 articles, 2 challenges

Language skills

French: native

English: full professional prof.

German: elementary

Interests

New technologies

Free and open-source software

Video games, raid leading

Board and role playing games

Additional information

Driving license
